## *Message from the Editor*

WOW !!!!! What a trip. Our Natchez Trace Parkway Model 'A' Tour was fantastic. Great group of people and their beautiful Model 'A's that ran superbly.

Everyone had a really nice time plus the weather was perfect for touring. Yvonne and I logged almost 1400 miles on our Fordor last week. And we blew our ahhhhoogahh horn at least 1.6 million times to all the smiling people along the way waving and giving us the thumbs up.

Jim

# Picnic in the Park

## Gulf Coast Model 'A' Club

will have a return of our Annual Picnic / Meeting on May 14, 2022 at the Garrett Park in Robertsdale, AL. We have not been able to have a club picnic since 2019 so please mark your calendars for this special day. It has been a tradition of our club for many years.

We have picked this location because we feel it is a more central location for our members. **Please try to drive your Model A's if at all possible.**

The pavilion has been reserved from 9:00 am - 3:00 pm, we will eat lunch around 11:30 am. **The club will provide a meat dish and members are to bring side dishes of your choice.** This is always a great time to gather and meet new club members.

**Please notify Martha Fuller at cell# (251)716-8680**

**Text or Call, if you plan to attend.**

**We need a head count to provide the main course.**

## **Natchez Trace Parkway Model 'A' Tour 2022**

We had a blast on the Trace and so did our Model 'A's. Cars all ran well and we had virtually no mechanical problems to speak of. Plus, the weather was almost perfect. We enjoyed a nice dinner in Ridgeland, MS and a wonderful farewell banquet in Franklin, Tennessee. The best part by far is all the new friends we made. It was a great group of people and an adventurous bunch ! Yvonne and I, Joe and Terri drove back in our Model 'A's from Franklin, TN and stopped by Gator's place on the way back.

A big THANK YOU to everyone who helped make this a a fun trip.

I won't blabber on because as they say, a picture is worth 1000 words. Enjoy these pictures from our trip.

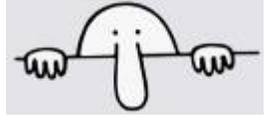

# Civitan Picnic in April

Thanks to Joe Stephens for the pictures. From Becky, " There was a total of 4, Mike Fowler, Joe Stephens, Wesley Chalk and Scott and I. "

# April Pensacola Breakfast

There was a pretty good turnout this month and despite the weather a few cars were driven !

# Jim's technical tip

by Jim Cannon,

## "The Right Tool for the Job" - Part 1

I've been working with a new Model A mechanic lately, which reminded me of some basics on choosing the right tool for the job. Today we talk about choosing wrenches and sockets for use on nuts and bolts. The thing that determines your choice is how well you need to grip the hex, to allow you to apply the torque (twist) you need... and your access to the nut or bolt head.

copyright Frisco IllustrationsOf.com/89401

Best Grip  
(highest torque)

6-point socket  
and box end

Rusted and seized nuts and bolts need the torque from the wrenches at the top. And some good penetrating oil! Until next time,

Have a Model A Day! Jim

12-point socket and  
box end wrench

Flare-nut  
wrenches

Open-end  
wrench

Crescent  
wrench

Slip-joint  
pliers

Poor Grip  
(can chew up the nut  
or bolt - don't use  
them)

**For Sale: Model "A" Ford Victoria Body.** The body was stored in

a dry basement for the last 53 years. The bottom wood and pan have been removed and in a box a set of Victoria body wood blue prints were found with the body.

The firewall was also removed to be repaired or to be replaced. The body appears to be in good shape with very little rust, on both doors there is a scratch with a small dent.

All window risers, and moldings are there except the two rear window moldings. Also found in the basement was an extra passenger side door with some rust on the bottom, it has the window riser but no molding. See pictures attached, with restoration

this should turn out to be a nice rare Model "A" Ford, the body is located in Montgomery, Alabama. The **price for the Victoria body and extra passenger side door is \$3,600**, the body is located in Montgomery, Alabama. For additional information contact **Paul M. Majerick (334) 312-3029** or email **paulmajerick@aol.com**

## Slide Fasteners

By Perry Jones, Piney Wood Model A Ford Club

Are you curious about the history of the "Clasp Locker", "Judson C-curity Fastener", or "Separable Fastener"? Many years later, we now call this device a *zipper*.

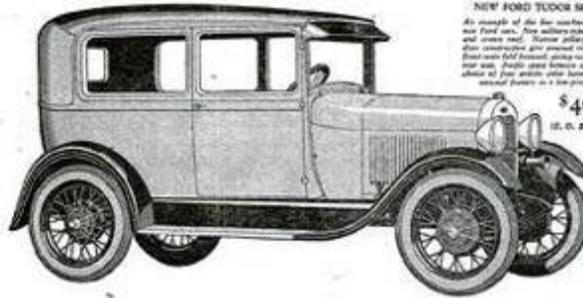

The two images to the left are from the same Talon advertisement found in the 1931 Ladies Home Journal. "Traveling Case – equipped with a Talon Slide Fastener. It can be opened or closed in an instant – but it can't come open accidentally."

If you are heading to the beach

"The very newest knitted bathing suits have a Talon Slide Fastener at the back of the jersey. Beach pajamas are cotton mesh and Talon-fastened at the side. And the polo shirt of cotton mesh is Talon-fastened, too – at the front."

# First Pictures of the New Ford Car

Get complete details  
**TOMORROW**  
at Ford salesrooms

FOR SEVERAL years we have been working on the new Ford car. For weeks and months you have been hearing rumors about it. For the past few days you have been reading some of the details of it in the newspapers.

Whatever you do tomorrow, take at least fifteen minutes to get the full story of this new automobile.

You will realize then that it is an entirely new and different Ford car, designed and created to meet modern conditions—a car that brings you more beauty, speed, quiet, comfort, safety, economy and stamina than you ever thought possible in a low-price car.

Automobile history will be made tomorrow, for the new Ford is not only new in appearance and performance... it is new in mechanical design. Many features of it are exclusive Ford developments. Some are wholly new in automobile practice. Its low price is a reflection of manufacturing improvements and economies that are as epoch-making as the car itself.

Nineteen years of experience in building 15,000,000 automobiles are behind the new Ford car and have counted in its making. Resources unmatched in the motor car industry are its heritage and its birthright.

The Ford policy of owning the source of raw materials, of making virtually every part, of doing business at a small profit per car, has cut many dollars off the price you would ordinarily have to pay for a car like this.

So we say to you—learn about this new Ford car tomorrow. Compare it with any other car in the light-car field for beauty of line—for comfort—for speed

—for quick acceleration—for flexibility in traffic... for steadiness at all speeds... for power on the hills... for economy and low cost of up-keep... for its sturdy ability to stand up under countless thousands of miles of service.

Then you will know why tomorrow will be remembered as one of the greatest days in the entire history of the automobile industry... Then you will know why the new Ford car will be *your* car.

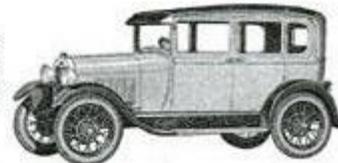

**NOTE THESE FEATURES**

- Beautiful new low body lines*
- Choice of four colors*

## About the Gulf Coast Model 'A' Club

The Traveler newsletter is published for the membership and friends of the Gulf Coast Model 'A' Club.

Outings are held monthly at various locations and times. Views expressed in the Traveler are not necessarily those of the Club Officers or MAFCA. Club membership is \$25.00 per year and can be mailed to Becky

Baisden at:

GCMAC,

PO Box 812

Cantonment, FL 32533

Club dues are \$25 per year for individuals or families. We currently have a membership of 40+ families. We believe in doing maintenance on the cars, educating ourselves on the Model 'A', fellowship with other members, showing the cars, driving the cars locally and on tours and having a great time seeing and driving Model 'A' Fords.

We have fun and would welcome you as a member whether you own a Model A or not. Come join with us in a wonderful hobby that is historical and worthwhile. You will meet friendly people who are in love with the Model 'A' and love to drive, show and talk about these interesting cars.

Permission to copy from this newsletter is granted if credit is given to the author and publication.
